

Hello there!

As you may already be aware, we began the process of domestically adopting a child from within the United States in September of 2023. Since our marriage in 2018, our dream as a couple has been to grow our family quickly and have lots of little feet pitter-pattering around the house. But, due to infertility we have not been able to reach this goal in the last five years. The Lord made it very clear to us last summer that our next step was to adopt a baby. We prayerfully considered different avenues of adoption, and felt called to adopt through Faithful Adoption Consultants!

Faithful Adoption Consultants, are located in Georgia, and have connections with different agencies that are located all over the USA. Our consultants are strong believers in open adoptions, which means the birth parents would still be able to have contact with their child through us as the child grows. This helps the child grow up knowing who they are, where they came from, and that they are so very loved. We also love that our consults encourage us to partner with the birth family, pray for and show them Jesus, and support the birth mother as much as we can.

On March 29, we got the call that we have been matched with an expecting birth mother! The child is due in October of this year! Now that we are matched, we have a large adoption cost fee that we have to pay at the time of placement. We owe \$38k when the baby is born. The fee is for the following: Legal fees, agency fees, and hospital costs for the birth mother and baby. We would be honored if you prayerfully considered giving to our adoption fund to help us meet our goal. If you're not in a place to give, your prayers would mean the world to us.
